The average lifespan of an adult cicada is 2 weeks after hatching....

?
I said it even after the stuff I said before!
M-mate!
DO WHAT?
BUT AKIRA..
Huh?!
Uh
I'M IN BAD SHAPE NOW.
THAT'S ALRIGHT.
Since we're here now
BUT DIDN'T YOU SAY THAT YOU ONLY WANT TO MATE WITH SOMEONE YOU LIKE?
SOMEONE WHO MAKES YOUR HEART RACE...?
Uhh

He's not wrong, but

I like him, but— He makes my heart race, but—

Natsume won't be here anymore after this...
So...
I want to
give Natsume
what he desires most
IF YOU WANNA DO IT, JUST DO IT!
YOU DON'T HAVE ANY TIME, RIGHT?
I-I'm nervous!
It's my first time after all
IF YOU DON'T WANT IT, THERE'S NO POINT, AKIRA.
EVEN IF YOU SAY THAT YOU'RE SHAKING ALL OVER
She...
trembles

But now it seems
I...!
I...!!
IT'S NOT POINTLESS!
that I've fallen for
NOW
I WANT TO DO IT...!
Natsume, the one who gave me courage.

If our first time is the last time
hug
THANK YOU,
AKIRA
I will
want to remember it

I'M SORRY.
Somehow I've already come this far.

I LIKE YOU, NATSUME
I don't want to be apart
I'M SORRY !
SOR-
AKIRA.
WHY "SORRY"?
I like you. Somehow I'll say it.
I WAS THINKING I MIGHT BE TOO LATE, EVEN IF I SAY IT NOW
More than being excessively attached to Natsume—
I WAS GOING TO KEEP QUIET ABOUT IT...!
AKIRA.
AKIRA
he
DON'T BE SORRY

I'M GLAD I FINALLY GET TO MATE WITH YOU, AKIRA, AND I'LL ENJOY IT, BUT
DON'T SAY YOU'RE SORRY
I'M HAPPIER THAT YOU SAID YOU LIKE ME--
I'M HAPPY.
...!
GRAB
ALWAYS!
I...
YOU'VE LIKED ME FOR SO MANY YEARS.
BUT IT WAS SUCH A LONG TIME...!

So
I LIKE YOU, NATSUME!
From now on, Natsume will always be happy.
I will always
pray for that
THANK YOU, AKIRA
I
LOVE YOU, TOO

Natsume ...
Akira! The sun's down!
Heeey!
I still can't go out during the day in the summer, but
Let's go play!
CLUNK
Akira~! They're calling for you.
Okay!
I don't hate summer anymore.
RATTLE
AKIRA!!
I'M COMING!
So slow!
Sorry
Where to? Wanna eat?
Until I wake up from this unbelievable miracle, I will always
love both
summer and Natsume

God

long life

They are short-lived creatures who die after 2 weeks... Even though I say that, actually during the larval period they can live up to 17 years underground! It's generally around 7 years. Even though they're short-lived, cicada rank amongst the oldest bugs.
